
LITE Youth & Family Empowerment Program

“

Strengthening Youth.
Supporting Families.
Building Community.

The LITE Youth & Family Empowerment Program is a culturally responsive, strength-based initiative that supports young people and the families and communities that surround them. We believe youth thrive when they are connected to caring adults, positive peers, and strong community networks.

Our program creates safe spaces where young people can explore identity, build leadership skills and strengthen their voice.

We also engage families as partners in growth and success.

WHAT WE OFFER

- Leadership development and life skills
- Social-emotional learning and confidence building
- Academic and career pathway support
- Mentorship from trusted adults and community leaders
- Family engagement activities, workshops, and opportunities for youth to give back and lead in their community

WHO WE SERVE

- Youth and young adults (ages 12-24)
- Young parents, their families and youth involved in or transitioning from foster care
- Youth reconnecting to school or exploring alternative pathways.
- Youth and families impacted by incarceration
- Youth who are interested in moving from "Street Capitalism to American Capitalism."

We recognize that every young person brings strengths, culture, and lived experiences that matter. By partnering with families and community members, we create a circle of support that nurtures resilience, responsibility, and leadership. Together, we can build confident young leaders, stronger families, and healthier communities.
